The Afri global Medical,
8, Mobolaji Bank Anthony Way,
By Unity Bus Stop,
Ikeja, Lagos.

MS WILLOUGHBY OLUWASEYI ABOSEDE

The above named 46-year-old woman is undergoing routine evaluation towards fertility treatment in our Clinic.

As part of our preconception care, we request a comprehensive medical check-up which would include a full physical examination, Full Blood Count (FBC), Electrolytes, Urea & Creatinine (E, U & Cr), Thyroid function tests (TFT), Liver function tests (LFT), OGTT, Urinalysis, Electrocardiogram (ECG), Mammogram, Pap Smear, Chest X-ray, in addition to evaluation of her background medical condition, before she commences treatment.

Thank you in anticipation of your report of the above tests and a medical report of her fitness for assisted conception.

Thank you very much.

Dr V. D. Ajayi
Consultant Gynecologist
For: Medical Director
